

Baby In The Bottle

The baby is in the bottle again
What are you going to do
When mama's at work far far away
Daddy's asleep I woke him up
And he called the police they said
If the baby's hand is
Up pull it and the baby came out
I guess it got back in oh boy
What it meant to do that
I should have none all along
It's ok daddy gosh baby's are mean
Hey you when one day
