

It's A Small World After All (Parody)

It's a Sad World After All

There's a world of light,
and a world of darkness
There's a world of love,
and a world of hatred

There's so much we could share
But we don't really care
It's a sad world after all

It's a sad world after all,
It's a sad world after all,
It's a sad world after all,
It's a sad, sad world

There's only one Earth
and a lot of dirt
There's only one moon
and it will go boom

Though we can still breathe air
It will be very rare
It's a sad world after all

It's a sad world after all,
It's a sad world after all,
It's a sad world after all,
It's a sad world after all.
