

## Moon Song, The

The Moon has come across the sky  
Now it is time to shut your eye  
Falling asleep is so very easy to do  
Knowing that Angels are watching over you  
So grab your pillow and tuck your sheet  
It is time for you and your dreams to meet  
Wrap up in your blanket and snuggle in  
Say your prayers and say Amen  
There just one last thing for us to do  
It is to say Good Night and I Love You!
